

Three Ideas for your Term Paper

I will try to return them to you with my responses next class.

TOPICS SHOULD: sustain your interest (very important)
be a manageable size

AND: investigate a relationship between two or more variables,
concepts, phenomena, or events

I find phrasing your possible topics of investigation as *questions* helps you to define them, so phrase your three possible topics accordingly.

So, what I want you to give me is: THREE POSSIBLE RESEARCH QUESTIONS

Having trouble? Strategies:

1. Talk to me. I am always available during my office hours, or I would be happy to make a special appointment with you.
2. Look through my shelf of books during office hours or by appointment. In my office I have resources that could provide inspiration.
3. Look through my files of articles and file of books I've ordered for the library to support this course
