

# Cumberland Valley Math Modeling Challenge

Shippensburg University  
September 24<sup>th</sup> & 25<sup>th</sup>

## What is the CVMMC?

An on-site, 24-hour math modeling contest that gives students, working in teams of three, the opportunity to apply their math skills to real-world problems. After developing models to solve a chosen problem, all participants present their findings and receive immediate feedback from fellow participants and faculty.

## Why the CVMMC?

- Apply math to the real-world
- Collaborate with peers
- Make math friends
- Communicate mathematics
- Get feedback on your work
- Give feedback to others
- Challenge yourself

**It's fun!**
