The screenshot shows a Windows Internet Explorer browser window displaying the EDU420's Blog website. The browser's address bar shows the URL <http://edu420.wordpress.com/>. The website has a dark grey header with navigation buttons for "Home" and "About". Below the header is a blue banner with the text "EDU420'S BLOG". Underneath the banner are links for "Entries RSS" and "Comments RSS". The main content area is divided into two columns. The left column contains three sections: "Pages" with a link to "About"; "Categories" with links for "Technology Standards (1)" and "Uncategorized (1)"; and "Archives" with links for "February 2009" and "January 2009". The right column features two blog posts. The first post is titled "Blogging Question #1", posted on February 1, 2009, by edu420. The text of the post asks about the importance of research and information fluency for 21st-century students and how to promote digital citizenship. The second post is titled "Hello world!", posted on January 6, 2009, by edu420. The text of the post welcomes visitors to the blog and states that it will start on February 2.

Blogging Question #1

Posted on **February 1, 2009** by edu420

How do you understand "research and information fluency" stated in the 2007 National Technology Standards for Students? Why is research and information fluency so important for 21st century students?

As as K-12 school teacher, how can you effectively promote and model digital citizenship and responsibility?
