

ADAPTIVE RELEASE FUNCTION

Add a basic Adaptive Release rule

The Basic Adaptive Release rule allows the user to add and modify one rule for a single piece of content. This single rule may have multiple criteria. For example, the rule may require the user to meet both date criteria and review status criteria before the content is available.

NOTE: Use Advanced Adaptive Release rules to add multiple rules to a single piece of content.

Follow the steps below to add a basic Adaptive Release rule:

1. Open a Content Area from the Control Panel.
2. Select **Manage** next to the content item. The Manage page appears.
3. Select **Adaptive Release**. The Adaptive Release page appears.
4. Complete one or more sections of the Adaptive Release page and select **Submit**.

Add an Advanced Adaptive Release rule

Advanced Adaptive Release allows Instructors to add multiple rules to a single content item. If multiple rules are created, the content is visible to the user if any of the rules are met. Each rule may have multiple criteria. For example, one rule may allow users in Group A with a score above an 85 on a Test to view the content item. Another rule for the same item may allow users in Group B to view the same content item only after a specific date.

Follow the steps below to add an advanced Adaptive Release rule:

1. Open a Content Area from the Control Panel.
2. Select **Manage** next to the content item. The Manage page appears.
3. Select **Adaptive Release: Advanced**. The Adaptive Release: Advanced page appears.
4. Select **Add Rule** in the Action Bar. The Add Rule page appears. Enter a name for the rule and click **Submit**.
5. Use the options in the Action Bar on the Manage Criteria page to build the rule. For example, select **Add Date** to add date criteria to the rule. When that criteria is complete, another option in the Action Bar may be selected to build on the rule. Select **OK** when the rule is complete.
6. Repeat Step 4 thru Step 6 to add multiple criteria to an item.

Copy an Adaptive Release rule

Instructors may find it beneficial to copy an Adaptive Release rule, rather than creating a new one from scratch. Once the rule is copied the name may be changed and the rule modified. Rules may only be copied within a single content item; a rule from one content item may not be copied to another content item.

Follow the steps below to copy an Adaptive Release Rule:

1. Open a Content Area from the Control Panel.
2. Select **Manage** next to the content item with the rule you would like to copy. The Manage page appears.

3. Select **Adaptive Release: Advanced**. The Adaptive Release: Advanced page appears.
4. Click the checkbox next to the rule you would like to copy and select **Copy** in the Action Bar.
5. An exact replica of the rule appears at the bottom of the list. It has the same name as the original rule with 'Copy of' in the beginning.
6. Click **Modify** next to the new rule to make changes to the name or criteria.

Modify an Adaptive Release rule

Rules are managed and modified from the Adaptive Release page. The criteria of a rule and the name of a rule are managed separately.

Follow the steps below to modify the name of a rule:

1. Open a Content Area from the Control Panel.
2. Select **Manage** next to the content item. The Manage page appears.
3. Select **Adaptive Release: Advanced**. The Adaptive Release: Advanced page appears.
4. Select **Manage** next to the Rule that needs to be updated. The Manage Rule page appears. Modify the **Rule Name** and select **Submit**.

Follow the steps below to modify the criteria of an advanced rule:

1. Open a Content Area from the Control Panel.
2. Select **Manage** next to the content item. The Manage page appears.
3. Select **Adaptive Release: Advanced**. The Adaptive Release: Advanced page appears.
4. Select **Modify** next to the Rule that needs to be updated. The Manage Criteria page appears. Criteria may be added, modified, and removed. Select **OK** when the changes are complete.
5. Repeat Step 4 to change any additional rules related to the content item.

Follow the steps below to modify a basic Adaptive Release Rule:

1. Open a Content Area from the Control Panel.
2. Select **Manage** next to the content item. The Manage page appears.
3. Select **Adaptive Release**. The Adaptive Release page appears.
4. Make any necessary changes and select **Submit**.

NOTE: These steps may also be used to modify a rule with one criteria created on the Advanced Adaptive Release page.

Remove an Adaptive Release rule

Follow the steps below to remove an Adaptive Release rule:

1. Open a Content Area from the Control Panel.
2. Select **Manage** next to the content item with the rule you would like to remove. The Manage page appears.
3. Select **Adaptive Release: Advanced**. The Adaptive Release: Advanced page appears.
4. Click the checkbox next to the rule you would like to remove. Multiple rules may be selected. Click **Remove**.

NOTE: Basic Adaptive Release rules are also removed from the Adaptive Release: Advanced page.

Adaptive Release rules during copy, archive, and export

Adaptive Release rules and user progress information are only included during a full course copy with users and during archive and restore operations. Rules and user progress information are not saved during a copy of course materials into a new course or during a copy of course materials into an existing course. They are also not saved during export and import operations.
