Web Tutorial Grading Guidelines

Your final tutorial projects will be assessed in the following areas.

1. Overall Site Design (10 Points)

- a. Adheres to the project guidelines (length, format, style etc.).
- b. Uses appropriate style, font, and formatting (Make sure your group reviews the Tutorial Guidelines/Style tips handout!!!)

2. Rigor of Content (25 Points)

- a. Is the site organized and coherent including a clear introduction?
- b. Are the subtopic pages organized, logical, and relevant?
- c. Is there sufficient information to provide the reader with an overall understanding of the topic?
- d. Does the site contain up-to-date and accurate information regarding the topic?

3. Effective use of Technology (20 Points)

- a. Is the text easy to read and navigate (i.e. font, size, colors, etc.)?
- b. Do the graphics and images enhance the site?
- c. Are the subtopic pages and index pages found?
- d. Are ALL of the hyperlinks working?
Are the external hyperlinks relevant and appropriate?

4. Format and Grammar (10 Points)

- a. Does the site adhere to APA format?
- b. Are the citations presented in APA format?
- c. Is the reference page in APA format?
- d. Is the site free of grammar and spelling errors?

5. References (10 Points)

- a. Does the site contain at least four quality references from appropriate source?
- b. Are ALL of the citations hyperlinked to the reference page?
