Comparing Databases Available from Ship Library
[library.ship.edu. Choose “Course Guides” for your list of resources]

A. Your group will be researching the following topic: ____________________________

B. Your group has been assigned this database: _________________________________

Your group will research your topic in your assigned database. Your group will then briefly DEMONSTRATE that database to the rest of the class. Your group should be ready to share the answers to the following questions with the whole class.

1. What words did you use to search this resource?

2. What types of information regarding “Definitions and Characteristics” of a style of governance did you find in this database? How will you be able to use this database as you begin your research?

3. Does your database give you a citation which you can use for a Bibliography?

4. What advice can you give us about searching this database? Problems? Tips?
