In the first issue I promised you that in 2000 you would be able to search the catalogs of other PALCI libraries (PSU, Pitt, Lehigh, e.g.) and initiate a borrowing transaction without going through interlibrary loan. We expect that to be a reality by the end of the semester. In the fall we expect to offer you the capability of initiating your own direct borrowing from KLN libraries, including the State Library. Because both systems eliminate the interlibrary loan process, books will get to you faster.

This issue contains news about some of our activities, services, and information resources to support your teaching and research activities. I hope you will make a special effort to examine the beautiful facsimile of The Book of Kells. This kind of work can only be appreciated in tangible form. Digital reproduction cannot do it justice. Enjoy this unique manuscript in person.

In conclusion, I remind you that your (and your students') success at finding the information you need is our concern. Please do not hesitate to ask us for help. We may not be able to satisfy all your requests but we enjoy new challenges. Best wishes for a relaxing summer.

In an effort to increase retention of the students enrolled in the Summer Start for Academic Success program, four library faculty - Doug Cook, Karen Ellis, Berk Laite, and Barb Rotz - have agreed to participate as advisors and mentors to these students. Summer Start for Academic Success is an alternative method of gaining admission to Shippensburg University for the spring semester. Approximately 100 Summer Start students will attend classes at Shippensburg in Term V. After attending several workshops conducted by the Learning Assistance Center and by Marian Schultz, the four librarians have begun preparations for a handbook, study halls, and other close encounters of the best kind.
