

Text: *Single Variable Calculus, Early Transcendentals, Volume 1*, Jon Rogawski, Freeman 2008

Instructor: Dr. Marc Renault
Office: MCT 287
Phone: 477-1234
email : msrenault@ship.edu
web: webspace.ship.edu/msrenault

Office Hours:
 Mon 10:00 – 11:00
 Tue 2:00 – 3:00
 Wed 10:00 – 11:00
 Fri 10:00 – 11:00, 2:00 – 3:00
 Other times gladly by appointment

Topics :

Chapter 1: Precalculus Review
 Chapter 2: Limits
 Chapter 3: Differentiation
 Chapter 4: Applications of the Derivative
 Chapter 5: The Integral

Assignments:

1. **Homework** - Problems will be online and assigned through **CalcPortal** (see handout). Let me know **immediately** if you have any trouble getting started. Even though these homework problems are on the computer, use a pencil, calculator, scratch paper, and your book to work out your answers.
2. **Three In-Class Tests** – Oct. 2, Nov. 6, and Dec. 4. If you know you will miss a test, you must let me know at least 24 hours before the test time. Missed tests will receive a grade of 0 unless prior notification is given.
3. **Final Exam** - A comprehensive final exam will be given during final exam week. As extra incentive to do well on the final exam, I do the following: *if your final exam grade is better than your lowest test grade, I will replace your lowest test grade with your final exam grade.*

Extra Credit:

- Attend a department “Thursday Seminar” and submit a paragraph about it. (Max 4) ?? HW points
- Submit a solution to the “Problem of the Week” and give me a copy of your solution. ?? HW points
- NOTE: There is no limit to the number of extra credit points you can receive, BUT I will cap your homework grade at a maximum of 105%.

Grading: Your grade for the course will be calculated as the average of your grades on the five assessments: your homework grade, 3 test grades, and final exam grade.

Grade	A	A-	B+	B	B-	C+	C	D	F
Starts	93.3	90	86.7	83.3	80	76.7	70	60	0

Graphing calculators are required. In particular, I recommend the TI-83 or TI-84 family of calculators. Calculators may be used during tests unless indicated otherwise. **However**, calculators capable of symbolic differentiation/integration are not allowed on tests. **Specifically, the TI-89 and Voyage 200 may not be used on tests.**

Using cell phones during class is extremely rude. I die a little inside each time I see you text in class.

Accommodations for Learning Disabled Students. Students who have registered with the Office of Disability and desire instructional accommodations should notify me.
